HOOFLAND'S GERMAN BITTERS
AND
Hoofland's German Tonic.
The Great Remedies for all Diseases of the LIVER, STOMACH, OR DIGESTIVE ORGANS.
HOOFLAND'S GERMAN BITTERS
Is composed of the pure juices (or, as they are medicinally termed, Extracts,) of Roots, Herbs, and Barks, making a preparation, highly concentrated, and entirely *free from alcoholic admixture of any kind.*
HOOFLAND'S GERMAN TONIC,
Is a combination of all the ingredients of the Bitters, with the purest quality of *Santa Cruz Rum*, Orange, &c., making one of the most pleasant and agreeable remedies ever offered to the public.
Those preferring a Medicine free from Alcoholic admixture, will use
HOOFLAND'S GERMAN BITTERS.
Those who have no objection to the combination of the bitters, as stated, will use
HOOFLAND'S GERMAN TONIC.
They are both equally good, and contain the same medicinal virtues, the choice between the two being a mere matter of taste, the Tonic being the most palatable.
The stomach, from a variety of causes, such as Indigestion, Dyspepsia, Nervous Debility, etc., is very apt to have its functions deranged. The Liver, sympathizing as closely as it does with the stomach, then becomes affected, the result of which is that the patient suffers from several or more of the following diseases:
Constipation, Flatulence, Inward Piles, Fulness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and Great Depression of Spirits.
The sufferer from these diseases should exercise the greatest caution in the selection of a remedy for his case, purchasing only that which he is assured from his investigations and inquiries possesses true merit, is skillfully compounded, is free from injurious ingredients, and has established for itself a reputation for the cure of these diseases. In this connection we would submit those well known remedies—
HOOFLAND'S GERMAN BITTERS
AND
HOOFLAND'S GERMAN TONIC,
Prepared by DR. C. M. JACKSON,
PHILADELPHIA, PA.
Twenty-two years since they were first introduced into this country from Germany, during which time they have undoubtedly performed more cures, and benefited suffering humanity to a greater extent, than any other remedies known to the public.
These remedies will effectually cure Liver Complaint, Jaundice, Dyspepsia or Indigestion, Chronic or Nervous Debility, Chronic Diarrhœa, Diseases of the Kidneys, and all Diseases arising from a disordered Liver, Stomach, or Intestines.
DEBILITY,
Resulting from any Cause whatever; PROSTRATION OF THE SYSTEM, Induced by Severe Labor, Hardships, Exposure, Excess, &c.
There is no medicine extant equal to these remedies in such cases. A tone and vigor is imparted to the whole system, the appetite is strengthened, food is enjoyed, the digestion promptly, the blood is purified, the complexion becomes sound and healthy, the yellow tinge is eradicated from the eyes, a bloom is given to the cheeks, and the weak and nervous invalid becomes a strong and healthy being.
PERSONS ADVANCED IN LIFE,
And feeling the hand of time weighing heavily upon them, with all its attendant ills, will find in the use of this BITTERS, or the TONIC, an elixir that will instil new life into their veins, restore in a measure the energy and ardor of more youthful days, build up their shrunken forms, and give health and happiness to their remaining years.
NOTICE.
It is a well established fact that fully one half of the female portion of our population are seldom in the enjoyment of good health, or, to use their own expression, never feel well. They are languid, devoid of all energy, extremely nervous, and have no appetite.
To this class of persons the BITTERS, or the TONIC, is especially recommended.
WEAK AND DELICATE CHILDREN,
Are made strong by the use of either of these remedies. They will cure every case of MARASMUS, without fail. Thousands of certificates have accumulated in the hands of the proprietor, but space will allow of the publication of but a few. Those, it will be observed, are men of note and of such standing that they must be believed.
TESTIMONIALS.
HON. GEORGE W. WOODWARD,
Chief Justice of the Supreme Court of Pa., writes:
Philadelphia, March 18, 1867.
"I find 'Hoofland's German Bitters' is a good tonic, useful in diseases of the digestive organs, and of great benefit in cases of debility, and want of nervous action in the system.
Yours, truly,
GEO. W. WOODWARD."
HON. JAMES THOMPSON,
Judge of the Supreme Court of Pennsylvania.
Philadelphia, April 28, 1866.
"I consider 'Hoofland's German Bitters' a *valuable medicine* in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect, JAMES THOMPSON."
FROM REV. JOSEPH H. KENNARD, D. D,
Pastor of the Tenth Baptist Church, Philadelphia.
Dr. Jackson—Dear Sir: I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, have refused in all cases declined; but with a clear conscience in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that, *for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation.* In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.
Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates St.
FROM REV. E. D. FENDALL.
Assistant Editor Christian Chronicle, Philadelphia.
I have derived decided benefit from the use of Hoofland's German Bitters, and feel it my privilege to recommend them as a most valuable tonic, to all who are suffering from general debility or from diseases arising from derangement of the liver.
Yours truly,
E. D. FENDALL.

I'VE BEEN THINKING.

I've been thinking, I've been thinking,
What a glorious world were this
Did folks mind their business more,
And mind their neighbors less.
For instance, you and I, my friend,
Are sadly prone to talk
Of matters that concern us not,
And others' follies mock.

I've been thinking if we'd begin
To mind our own affairs,
That possibly our neighbors might
Contrive to manage theirs.
We've faults enough at home to mend—
It may be so with others;
It would be strange if it were not,
Since all mankind are brothers.

Oh! would that we had charity
For every man and woman;
Forgiveness is the mark of those
Who know "to err is human."
Then let us banish jealousy;
Let's lift our fallen brother;
And as we journey down life's road,
"Do good to one another."

Husbands and Wives.

Mr. Alger, in his "Friendship of Woman," has a chapter on "Husbands and Wives," of which the following is an extract:—Let a husband be the true and pure guardian of his family, laboring always to adorn himself with the godlike gems of wisdom, virtue, and honor; let him bear himself in relation to his wife with gracious kindness toward her faults, with grateful recognition of her merits, with steady sympathy for her trials, with hearty aid for her better aspirations, and she must be of a vile stock if she does not revere him and minister unto him with all the graces and sweetness of her nature.

Let a wife in her whole intercourse with her husband, try the efficacy of gentleness, purity, sincerity, scrupulous truth, meek and patient forbearance, an invariable tone and manner of deference, and if he is not a brute he cannot help respecting her and treating her kindly; and in nearly all instances he will end by loving her and living happily with her.

But if he is vulgar and vicious, despotic, reckless, so as to have no devotion for the august prizes and incorruptible pleasures of existence; if she is an unappeasable termagant, or a petty worrier, so taken up with trifling annoyances that, wherever she looks "the blue rotunda of the universe sinks into a house-wifery room;" if the presence of each acts as a morbid irritant on the nerves of the other, to the destruction of comfort and the lowering of self respect, and the draining away of the peace and strength, their companionship must infallibly be a companionship in wretchedness and loss.

The banes of domestic life are littleness, falsity, vulgarity, harshness, scolding vociferation, an incessant issuing of superfluous prohibitions and orders, which are regarded as impertinent interferences with the general liberty and repose, and are provocative of rankling or exploding resentments The blessed antidotes that sweeten and enrich domestic life are refinement, high aims, great interests, soft voices, quiet and gentle manners, magnanimous tempers, forbearance from all unnecessary commands or dictation, and generous allowances of mutual freedom. Love makes obedience light or than liberty. Man wears a noble allegiance, not as a collar, but as a garland. The Graces are never so lovely as when seen waiting on the Virtues; and, where they thus dwell together, they make a heavenly home.

WHY IS THIS THUS?—Wherefore so many bald men and so few bald women? Why is it that the skulls of young men in their twenties shine like billiard-balls? Why this spectacle of bald-headed barbers rubbing the dry tops of bald headed men, recommending invigorators warranted to produce bushy locks in less than a fortnight, while bald-headed spectators and middle aged men with wigs look on with derisive smiles; though all the while their wives and daughters throng our streets covered with crowns of beauty, and charming actresses toss their blonde tresses in luxuriant profusion on the stages of our balls. Our male population will no doubt take a serene satisfaction in saying that it is because men have more to worry them than women, and have the trouble of contriving not only how to support themselves, but also how to support these wives and daughters. Probably, however, that is not the reason. Women of course have finer and longer hair than men, but men destroy their hair by making ovens of their heads under their hats, and thus heat the tops of their craniums until the hair dies out for very want of air. Men should take off their hats oftener or ventilate them better.

A TABLESPOONFUL.—Mr. Wesley, once dining with a respectable local preacher, on perceiving him about to prepare a little brandy and water, with an exclamation of surprise, cried:

"What, my brother! what's that?"

"It is brandy," said his host; "my digestion is so bad that I am obliged to take a little after dinner."

"How much do you take?" asked Wesley. "Let me see."

"Only about a tablespoonful."

"Truly," said Wesley; 'that is not much; but one tablespoonful will soon lose its effect, and then you will take two; from two you will get to a full glass; and, that in like manner, by habituating yourself to it, will lose its effect, and then you will take two glasses; and so on, till in the end, perhaps, you will become a drunkard. O, brother, take care what you do?"

Happily had it been for that man if he had taken the timely warning of his faithful friend. But, alas, he trifled with his little drops until he became a drunkard, and ruined his reputation.

Bread and Babies.

[From the Revolution.]

We are constantly asked, if women vote, what will become of the bread and babies?

In view of the heavy bread, and badly-cooked food we find on most tables, and the shocking mortality among infants, we contemplate with wonder and pity the blind faith of man in the maternal and culinary intelligence of "the weak-minded" who have no aspirations beyond Hecker's flour, Mrs. Winslow's soothing syrup, and Wheeler and Wilson's sewing machine. Seeing that women have devoted themselves through the ages to domestic economy and failed, as miserably as men have in the art of government, we have, after mature thought, come to the conclusion that just as women's enlightened interest in political questions will improve the state, so man's skill and science are necessary to redeem the home from its present disorder, disease, and death. If there are two things we thoroughly understand, they are babies and bread, and for our knowledge of both these divine arts we are indebted to philosophical, scientific gentlemen.

The only valuable work we ever saw on infancy was written by a man, Andrew Combe, of Scotland, a close observer, a sound thinker, and a learned physiologist. We shall never forget how tempest-tossed we were when we first found ourself the happy possessor of a male child without the slightest knowledge of what to do for his comfort and protection. An ignorant nurse fidgeted round the room day and night, sang melancholy ditties, and rocked vehemently, while the child cried continually with a loud voice, and we wept, prayed, and philosophized by turns. Reasoning on general principles, we at last came to the conclusion that inasmuch as the child was large and vigorous, there must be some mistake on the part of the nurse that he was not quiet and comfortable, we fortified ourself in that opinion by a faithful reading of what Mr. Combe had to say on babies in general. The result of this consideration of his opinions was a prompt revolution in the whole nursery department, and a transfer of pain from the baby to the nurse, who stood humbled and chagrined as she saw her time honored system summarily set aside—the pins, paregoric, catmint, and cradle driven out—while pure air, sunlight, and common sense walked in. Oh! what sighs, what groans, what doubtful shakings of the head, what suppressed laughter and whisperings in the hall we heard during the first few days after the inauguration of that dynasty of health, happiness, and rest to that new-born soul.

When the three hours cry begun that day, which ancient dames assured us was a custom that had been faithfully kept by all the sons of Adam from time immemorial, we ordered the little sufferer to be promptly stripped to the skin and put in a warm bath; that brought instant relief, after which he was dressed in a few light garments hung on the shoulders, with no swaddling bands, no pressure on the lungs or bowels, and laid down to sleep. He was fed (according to Combe) every two hours by day, and but once during the night. After that we had peace, though eternal vigilance on our part was its price. The custom of pinning babies up as tight as a drum is both cruel and absurd. We asked the antiquarian who tortured our first born in that way, why she did it? "The bones of young babies are so soft and their flesh so tender," said she, "that they are in constant danger of dissolution unless tightly pinioned together." We soothed her fears by pointing to the fact that colts and calves, puppies and kittens, all lived and flourished without bandages, and for the benefit of the race we said we would make the experiment on one of the human family.

If babies are regularly fed, bathed, and comfortably dressed, and in a pure atmosphere, they will be quiet and healthy. The ignorance of women on these subjects is truly lamentable. We have seen children a year old that had never tasted water, when they should have it half a dozen times a day from the hour of their birth. We have found fathers who worked hard all day complain bitterly of being disturbed at night by crying children, hence the common use of Mrs. Winslow's soothing syrup, which only tends to increase the irritable condition of the nervous system, and permanently weaken the brain.

Young mothers no doubt imagine that this Mrs. Winslow is some experienced, humane old lady, who loves little children, knows just how to soothe them to sleep, and pilot them through all the pitfalls of infancy, while, in fact, this abominable syrup is compounded by some ignorant man, in whiskers, broadcloth,

☞The Electoral College met in the Senate Chamber at Harrisburg on last Wednesday. The vote of the Electors was unanimous for Grant and Colfax.

☞Gen. Grant has been moving about seeing the sights. He was in Massachusetts last week, and was everywhere handsomely received.

☞Congress met again on Monday. The session will end 4th of March. President Johnson's last message will be sent in to day or to morrow. Many important questions will come up during the winter and be acted upon.

☞The United States Senator question has been *worked up* in every part of the State until it is almost impossible even to guess who will stand the best chance of an election. Mr. Scott is not losing—he is gaining strength every day.

☞The news from the plains is encouraging. A single column, it appears, has accomplished more in a month than the united forces on the plains achieved in years under the operations of other and less energetic and earnest leaders. General Custer's exploits on the north fork of the Watchita river read well. One hundred and fifty-three captured. The loss to the troops was twenty-one killed and nineteen wounded. Formerly it cost the Government on an average half a million to kill an Indian outright. By the present plan five or six millions will restore perfect order to the borders. In other words, General Sheridan does more with a hundred dollars than other men did with a million.

☞General Grant, it appears, is not only not a seeker for office, but neither has he any desire to be a holder of office. It is alleged that he favors an amendment to the Constitution limiting the President to one term. Perhaps, when he has had four years experience as President, he may change his views; but at present we can see no use of changing the good old custom, as far as the Presidency at least is concerned, of giving a second term to one who has shown his capacity and honesty for the position, and who has received the sanction of the people. Refer to Lincoln's time, and looking over the whole Union, who could we have found more worthy, and whom could we have trusted. If Grant restores peace and keeps rebels in check, the people will trust no one else after his four years are ended, and he will be obliged to respect the will of the people as much then as he was to accept it now.

EXEMPTION OF MORTGAGES FROM TAXATION.—The law passed by our State Legislature at the last session exempting certain obligations contracted in the purchase or improvement of real estate, went into practical operation on the first instant. This we regard as a most beneficent enactment, as its provisions will enable borrowers of money upon real estate, to obtain it more readily and upon better terms than would otherwise have been the case. It was a question with the Legislature whether the lawful rate of interest should be raised, or some of the burdens on money invested in mortgages and judgments removed, and it was to meet the difficulty that this law was passed. It is as follows:

AN ACT *to promote the improvement of real estate by exempting mortgages and other money securities from taxation, except for State purposes, in certain Counties of this Commonwealth.*

SECTION 1. *Be it enacted, &c.*, That all mortgages, judgments, recognizances and moneys owing upon articles of agreement for the sale of real estate made and executed after the passage of this act, shall be exempt from all taxation except for State purposes; and that from and after the first day of December next, no taxes of any description shall be assessed or collected except for State purposes, on or from mortgages, judgments, recognizances or moneys owing upon articles of agreement for the sale of real estate, whether made and executed before or after the passage of this act: *Provided*, That nothing in this act shall be construed to apply to mortgages, judgments or articles of agreement given by corporations: *Providing*, That this act shall only apply to the counties of Berks, Schuylkill, Luzerne, Clearfield, Allegheny, York, Delaware, Montgomery, Chester, Lancaster, Huntingdon, Fulton, Bedford, Blair, Lebanon, Clinton, Carbon, Monroe, Lehigh, Mifflin, Westmoreland, Northampton, Juniata, Somerset, Indiana, Greene, Elk, Forrest, Franklin, Perry, Cumberland, Dauphin, Lawrence, Lycoming, Union, Snyder, Erie, Crawford, Bucks, McKean, Fayette, Philadelphia and Mercer. ELISHA W. DAVIS,
Speaker of the House of Representatives.

JAMES L. GRAHAM, Speaker of the Senate.

Corporeal Punishment.

The School Directors of Bedford borough have abolished corporeal punishment in the schools of that place. We think they have done wisely, and we suggest that the experiment be tried in the schools of this place. We never could see the use of inflicting the use of the rod upon the hands or back of the pupils. We know when we went to school and saw the "bad boys" getting punished with the rod, they suffered the blows but they never thought afterwards what they were punished for; while we have seen other boys who were punished by kind words, which penetrated the conscience, and they were not as apt to commit an offense as those who were punished with the rod. And, further, we have known teachers since, who have won the affection of their scholars by a stern but winning mastery, and never had occasion to inflict corporeal punishment. Terror and affection are direct opposites, and it is very easy to distinguish in a school the one which governs the scholars. Those pupils which are filled with terror of the rod, if they make a blunder or commit a little misdemeanor, are not as willing to learn or be taught as those which have affection for the teacher. Show us a teacher who has this love from his scholars, and we will show you one who can teach better than one who has their fear. The reason is obvious, for what delight is it to a scholar to know that if he should commit a blunder he will be punished with the rod by his austere teacher, and what pleasure is it to a scholar to be in a school-room where the teacher's rod is as quick in punishing as his eye is in detecting a misdemeanor. The school-room must be made attractive before any good results will be manifested, as no scholar loves to go where the school-room is repulsive—made so by severity of punishments. We heartily commend the action of the Board of Directors of Bedford borough, and in the future we predict good results for that school. We don't know how they will punish in the future, (for we admit punishment of some kind is necessary) but we presume if there are any very unruly children, their contaminating presence in the school-room will be dispensed with until they show signs of reform, which, we think, is the proper plan to pursue. The disgrace attendant upon an expulsion from school is, or if it is not it can be made to be, more poignant to the conscience of the scholar than a whipping would be.

SOLDIERS' ORPHANS.—The total number of children admitted into the Soldiers Orphans Schools in this State is 4,096. The number now in the schools 3,506. Number discharged 481. Number who died, 87. It thus appears that the schools are rapidly doing their work and sending forth hundreds of youth prepared for the duties of life in such manner as to repay the State for her care. The good done by the Soldier's Orphans Schools can not as yet be fully realized, but it will, like bread cast upon the waters, return after many days. Indeed, at present, we have source of great gratification in the knowledge that over four thousand children of our State and Nation defenders have been remembered by a grateful Commonwealth, and that these four thousand orphans, who would otherwise, perhaps, been left to the mercy of an uncharitable community, have been fostered in good institutions and received the priceless boon of a good education.

MADE-UP LIQUORS.—One is impressed to seek a reason for the numbers of murders and sudden deaths which are now so frequently reported, and in doing so there is one frightful source to which to trace the cause of the evil, and that is the amount of made-up and poisoned liquors now sold to the public as a beverage. In a very large majority of the cases of murder reported, the murderer has been found to be laboring under a species of insanity, produced by the fiery poison of a made-up stuff called liquors. At any corner you may find a compounder of poisons, and it is too tempting a business to be easily prevented. Ten dollars' worth of strychnine or other poisonous drugs will impart to a barrel of beer double the strength of that value of hops, and with the present skill in chemical preparations, hardly a gallon of pure liquor is necessary to produce thousands of gallons. The city is flooded with these poisons, called by all sorts of names. The best brands of champagne are wholly produced in this country in such perfect imitations, that the genuine cannot be detected if perchance a bottle should be mixed with it. The California wines offered for sale are very large, but the made up manufacture of certain establishments in this city. So with other wines and liquors. Nor are these exaggerated statements; they can be verified any day by the assessors of internal revenue, and the examination of the liquor. But can nothing be done to stop this, wholesale poisoning of the community? Must every man who takes a glass of wine become a possible murderer, an insane homicide? The evil is one which cannot be overlooked.—*N. Y. Commonwealth.*

☞Data, compiled from the official records, show that we have had, in the past forty years, seven Indian wars, (the last still pending,) and an almost countless number of less important outbreaks. And this Indian question, with its final adjustment still an affair of the future, has cost the nation nearly $1,000,000,000 and over 20,000 lives, while the present war, if prosecuted upon the plan of that with the Seminoles, will cost over 30,000 lives additional, with seven hundreds of millions of expense to the Treasury.

The Senatorial Question.

To the Editor of the Pittsburg Commercial:

I observe that, while you claim the United States Senatorship for Allegheny county, you are not adverse to a candid discussion of the merits of candidates residing elsewhere. I would readily concede to Allegheny county all that you allege on behalf of the west, because a careful investigation might disclose the fact that the west has its full share of officers and honors, while it would be difficult to find an adequate reward for the vote of your county, which made the October victory significant, and for the splendid majority given to General Grant.

It is a matter of regret that instead of presenting one candidate, you are offering at least three, with hint of a fourth, and thus rendering it probable that no one of them will succeed. If I understand your editorial of Tuesday last, this is your own view of the matter, and I may believe the question to be now agitating the minds of the people of Allegheny county—if our domestic feud or rivalry cannot be composed, and neither of our candidates can be elected, to what other locality shall our influence be given, and for whom shall our vote be cast? I would suggest to them and to their neighbors that they look as far east as Huntingdon, and consider the claims of Hon. John Scott.

Between the portion of the State in which Mr. Scott resides and the west no local questions can arise, for their business relations are intimate and their interests identical. Huntingdon county is the center of a considerable mining and manufacturing region—industries which are in the broadest sense Pennsylvanian; depending for their prosperity upon the same national policy on which depends the business of Pittsburg and the West; a policy which will find in Mr. Scott perfect comprehension and an advocacy the more influential that it will be free from the imputation of personal interest.

Mr. Scott's friends may justly claim for him pre-eminent ability, and they should not be understood as disparaging other candidates. He ranks among the foremost lawyers of the State, as will be conceded by the bench and the bar without a dissenting voice. That he is not more distinguished as a politician is not at all owing to a lack of interest in political affairs, for he has been most efficiently active in support of the Republican party whenever such help was needed, but rather for the reason that he has not been concerned in the management of State politics. Doubtless at this time he would be more prominent as a candidate if he had been known as an adherent of some particular division or army corps of the Republican party, but he would not have more real strength, for the useful and eminent corps commanders who do not agree very well with each other, have for him the highest regard, and know that in his success the party of the people only would triumph.

I think that mature reflection must convince the business men of your county and the State at large that it will be good policy to unite on Mr. Scott. They know him to be in every way worthy of confidence. They have now an eminent representative of their own order in the Senate, and they seem to differ in opinion as to whether it is advisable to insist upon having another. Looking at the question apart from personal preferences—as you may be compelled to view it—is not Mr. Scott as serviceable and acceptable a man as the field presents, and, therefore, in the melee, will he not probably succeed? I can assure your readers that he has many adherents, and that he is gaining strength daily.

I make no extended eulogy of Mr. Scott's character, for it needs none.—He is admired and loved at home, and is distinguished for simplicity of manners and conscientious discharge of the duties of life.

Yours, very truly,
WESTERN MANUFACTURER.

EXPLOSION OF A BOMBSHELL.—An accident of a very serious nature, yet singular in its occurrence, took place at Mansfield, Pa, about four o'clock on Tuesday afternoon the 1st inst.—About the time mentioned, Mr. Wm. Ford, of the firm of Ford & Green, grocers at Mansfield, was engaged in the store preparing to attach a weight to the door. That which he intended to use as the weight was an old bombshell, which had been lying about the store for a long time, and which was supposed to be empty. The hole in the shell had become filled up with dirt, and incredible as it may seem, Mr. Ford, in order to clean it out thrust a poker heated almost red hot into the opening. A second afterward and the supposed empty bombshell exploded with a loud report, which shook the entire building. Mr. Ford was struck in the right thigh with a piece of the exploded shell, which passed through tearing the flesh badly and inflicting a severe though not dangerous wound. Fortunately the bone was not broken. Mr. Ford was knocked down by the force of the explosion, and in his fall struck his face against the corner of the stove, sustaining a severe cut, which it is thought will destroy the sight of one of his eyes.—A piece of the shell passed through a barrel of oil that was standing near by and as the oil ran out it caught fire and the utmost difficulty was experienced in saving the building from burning down. All the windows in the building were shattered. At last accounts Mr. Ford was doing as well as could be expected under the circumstances.—*Pittsburg Commercial.*

☞Two weeks hence the great armies of the West are to hold a reunion in Chicago. Their ranks include the surviving heroes of Belmont and Pittsburg Landing, of Vicksburg and Mission Ridge, and Kenesaw and Atlanta, of the march down to the sea, and the campaign of the Carolinians, and the capture of Mobile and the battle of Nashville—the troops that fought out the war between the Alleghenies and the Plains, and then helped to send it below Richmond.

Mrs. Grant, as well as the General, has trials incident to the high station that has come to her. Already she is annoyed by persons who want to be employed at the White House as servants, and the demands made upon her charity would exhaust a millionaire's purse.

General Reynold's Report.

The following is the report of Brevet Major General Reynolds, commanding the Fifth Military District, which embraces the State of Texas:

HDQRS. MILITARY DISTRICT, STATE OF TEXAS, AUSTIN, Nov. 4, 1868.
Adjutant General United States Army, Washington, D. C.:

GENERAL:—I have the honor to forward herewith an annual tabular statement of expeditions, scouts, and report of movements of the various regiments serving in this district for the year ending September 30, 1868. Armed organizations, generally known as the Kuklux Klan, exist independently or in concert with other armed bands in many parts of Texas, but are most numerous, bold, and aggressive east of the Trinity river. The precise objects of these organizations cannot be readily explained, but seem in this State to be to disarm, rob, and in many cases murder Union men and negroes, and as occasion may offer, murder United States officers and soldiers; also to intimidate every one who knows anything of the organization but will not join it.

The civil law east of the Trinity river is almost a dead letter. In some counties, the civil officers are all, or a portion of them members of the Klan; in other counties, where the civil officers will not join the Klan, or some other armed band, they have been compelled to leave their counties. Examples are Van Zandt, Smith, and Marion counties. The county seat of the latter is Jefferson. In many counties, where the county officers have been driven off, their influence is scarcely felt. What political end, if any, is aimed at by these bands, I cannot positively say, but they attend in large bodies the political meetings and barbecues which have been and are being held in various parts of the State, under the auspices of the Democratic clubs of the different counties.

The speakers encourage the attendance, and in many counties men have been indicated by name from the speaker's stand as those selected for murder. The men thus marked have no course left them but to leave their homes, or be murdered on the first convenient opportunity. The murder of negroes is so common as to render it impossible to keep an accurate account of them. Many of the members of these bands of outlaws are transient persons in the State. The absence of railroads and telegraphs, and great length of time required to communicate between remote points, facilitate the diabolical purposes.

These organizations are evidently countenanced, or, at least, not discouraged by a majority of white people in the counties where the bands are most numerous. They could not otherwise exist. I have given this matter close attention, and am satisfied that a remedy, to be effective, must be gradually applied, and combined with the firm support of the army, until these outlaws are punished or dispersed. They cannot be punished by the civil courts until some examples of military commissions show that men can be punished in Texas for murder and kindred crimes. Perpetrators of such crimes have not heretofore, except in very rare instances, been punished in that State at all. Free speech and free press, as the terms are generally understood in other States, have never existed in Texas. In fact, the citizens of other States cannot appreciate the state of affairs in Texas without actually experiencing it.

The official reports of lawlessness and crime, so far from being exaggerated, do not tell the whole truth. Jefferson is the centre from which most of the trade, travel, and lawlessness of Eastern Texas radiates, and at this point, or its vicinity, there should be stationed about a regiment of troops. The recent murder at Jefferson of Hon. G. W. Smith, a delegate to the constitutional convention has made it necessary to order more troops at that point. This movement weakens the frontier posts to such an extent as to impair their efficiency for protection against the Indians, but the bold wholesale murdering in the interior of the State seems at present to prevent a more urgent demand for troops than Indian depredations. The frontier posts should, however, be reinforced, if possible, as it is not improbable that the Indians from the Northwest, after having suffered defeat there, will make heavy incursions into Texas.

To restore measurable peace and quiet in Texas will require for a long time that troops be stationed at many country seats, until by their presence, and aid if necessary, the civil law can be placed in the hands of reliable officers and executed. This will be the work of years, and will be fully accomplished only by an increase of population.

I am, General, very respectfully, your obedient servant,
J. J. REYNOLDS,
Brevet Maj. Gen. U. S. A. commanding

THE INDIAN WAR.

Cheyenne Village Captured by Custar.

ST. LOUIS, Dec. 1.—The *Democrat* has a special, dated in the field, Indian Territory, November 28th, which says the Cheyenne village of Black Kettle's band, on the north fork of the Witchita river, was captured yesterday morning at daylight by the cavalry under General Custar. One hundred and fifty Indians were killed and fifty-three taken prisoners. A large amount of property was captured, consisting of fifty one lodges, nearly one thousand horses and mules, arms and ammunition, horse equipments, robes, provisions, &c., most of which was destroyed. Black Kettle, the principal chief, was killed, Lt. Col. Barintz severely, if not fatally, wounded, and Major Elliott is missing. One soldier of the 7th cavalry was killed and fourteen wounded. The Indians, including women and boys, fought desperately, but they were completely overpowered and badly whipped.

Recently a paragraph was published telling how a well to-do farmer, of Harrison county, Indiana, forced his daughter to work in the fields with a negro. Soon she gave birth to a mulatto child, and was driven away by her father. She now brings suit against him for wages due for ten years' labor, performed since she came of age, and as the law is on her side she will probably get it.

I have'nt heard such a sound for ten years." The audience applauded this sentiment, the orchestra stopped, and the baby continued its performance, amid unbounded enthusiasm.

Several year's experience of the License law in Massachusetts has resulted in increasing the number of liquor shops in Boston from 1,900 to 2,500, and the number in the State in like proportion. The good people of Massachusetts think the License law has had a fair trial, and on the whole has failed so signally as to convert the previous partial failure of the Prohibitory law into a comparative success. On the square issue between License and Prohibition they have elected an overwhelming majority of Prohibitionists to the next General Assembly, and the result will be a repeal of the License law and a return to Prohibition.

☞The civil war in Japan is nearly over, and results in the abolition of the Tycoonate and the resumption of the entire administration by the Milkado. The young Milkado has now reached his majority, and has been crowned Emperor. The Tycoon has notified the representatives of the Foreign Powers of his submission to the Milkado, who was on the point of leaving Kioto for Yeddo. The war against the most powerful of the Northern Diamios is still progressing, but the young Milkado seems to be on the point of a complete victory.

☞The sales of retail liquor dealers in the United States, during one year, amounted, according to the report of Commissioner Wells, to $1,483,461,865. Of this sum New York is credited with $246,617,520; Pennsylvania, $152,663,495; Ohio, $151,734,875, and Illinois, $119,933,745. When to this enormous amount of nearly fifteen hundred millions of dollars is added the value of the time wasted in the consumption of ardent spirits, and of the property destroyed by intoxicated persons, it is asserted that the savings from the disuse of alcoholic drinks would extinguish the public debt in one year.

☞Jerseyville, Illinois, boasts of a strange and hideous animal about the size of a very large hog, having light hair or bristles on the back, a bare breast, and ears like an elephant. His feet (judging by the tracks) are much like those of a dog, only many times larger, and having one toe more. His head is flat and broad. His mouth is opened like an alligator's by raising the upper jaw. His neck is long and legs short. He is amphibious. A hunting party was organized to capture this wonderful animal, but after killing the largest dog, and breaking a man's leg, it made for the water and escaped.

A CITY TURNED INTO AN OYSTER BED.—A Paris letter to the London *Times* says: The Irish Fishery Commissioners have concluded their labors in France, and after a tour of inspection extending over two thousand miles, during which they visited fourteen of the principal places in which oyster culture is carried on. Among the objects of interest visited by the Commissioners, the *pares* of Chatelaillon deserve mention. One can hardly conceive a city turned into an oyster bed, or a population replaced by scallops and periwinkles, yet such, it appears, has been the fate of Chatelaillon. On the sea coast, some ten miles from La Rochelle, stood, centuries ago, the important town of Chatelaillon, which preceded it. The encroachments of the sea little by little carried away the earth on which it stood, and submerged its ruins. Of these nothing now remains but the shattered walls of what is said to have been a portion of an ancient castle, which stood upon a low cliff immediatly over the sea; and as the cliff is still falling into the sea piecemeal, the last vestige of the ancient city will doubtless soon disappear altogether. The eminence on which the town stood is visible at low water, and though the eye traces a fanciful resemblance to streets in the natural passages formed between the *pares*, and the *pares* are no doubt formed of some of the stones which belonged to the city itself, and continues to be called after the traditional designations of the various streets, there really are no visible vestiges of Chatelaillon beyond the ruin just mentioned. This city, or rather its site, is, in fact, an oyster bed.

During the San Francisco earthquake a carpenter was at work on a church spire one hundred and fifty feet from the ground. He had a splendid position to "see things," but hastily scrambled down.

HARRIET REED PROPERTY,

in Huntingdon, consisting of a good BRICK HOUSE and LOT, on Washington street, near the Court House. If not then sold it will be leased from January 1st to April 1st, 1869, to the highest approved bidder.

ALSO,

The subscriber will receive bids for the purchase of the large

THREE-STORY BRICK BUILDING

in which he now resides, and which is also occupied as a Hardware Store, Masonic Lodge and Chapter, and by the Young Men's Christian Association.

It is in a central business location, is a fine and substantial structure, having cut stone foundation and steps, pressed brick front, slate roof, French plate glass, solid walnut sash, best style of finish inside, with elaborate mouldings, fine glassing and graining. Gas pipes to every apartment, and whole house arranged with a view to comfort and convenience. Excellent well of water and very large cistern with both pumps on the porch.

On the building is a handsome Observatory, giving a pleasant view of the town and country for miles around.

Altogether this is the most desirable and valuable property in Huntingdon, which is now one of the most pleasant and thrifty towns on the line of the Pennsylvania Rail Road;

Last week we were pained to record the death of Mr. N. R. Att; this week we have to chronicle the death of Mr. C. Hester Hogg, another citizen of this place, who was horribly murdered about six o'clock on Friday morning last. His cries awakened the neighborhood, but before the citizens could arrive upon the scene his throat was cut from ear to ear, and the gurgling in his windpipe betokened his untimely demise. The man who committed the outrage, who is a colored man by the name of Robinson, was seen to jump the fence, but after that nothing was heard of him.

Sanford's Troupe.

This Troupe of Minstrels performed in the National Hall of this place last evening, and the audience was respectably large. The performance of this Troupe is well worth seeing, and none who were present last night regretted going, but, rather, eager to go again. For twenty years Mr. Sanford has had a desire to exhibit in this place, but the want of a hall has prevented him, but now that the great Original Comedian is here attended by a first-class Troupe of Artistes, it is hoped that he will not leave disappointed. To-night is his last in this place, then give him a good turn-out. Change of programme.

Proceedings of the Borough Council.

The Council met. Present: *Chief Burgess*, Mr. Glazier; *Assistant Burgess*, Mr. Miller; *Council*, Messrs. Black, Carmon, Fisher, Jackson and Port.

The minutes of the last stated and special meetings were read.

The Secretary read a communication from S. A. Black, Superintendent of the Middle Division, of Pennsylvania Railroad, in reply to his letter to Mr. B., in relation to the fast running of trains, &c, on Allegheny street, written in compliance with a resolution of the Council adopted Nov. 6, 1868.

On motion of Mr. Fisher and Mr. Miller, it was,

Resolved, That the Burgess and Committee on streets be and they are hereby instructed to call upon Hon. George Taylor, and with him examine the northern end of Washington street, ascertain if the road bed is in proper condition to be McAdamized and make report to the next stated meeting.

On motion of Mr. Miller and Mr. Port, it was,

Resolved, That the committee on streets be and they are hereby authorized and required to direct the Street Commissioner, to make such repairs upon the streets as to them may seem necessary, and that all other work upon the streets shall be postponed until spring.

Bills were read and orders were granted as follows:

Henry & Co., Lumber, &c.,	$4,30
Johnston & Wattson, merchandize,	$4,07
Gas Co., gas for November,	$16,80
Check Roll of St. Commissioner,	$115,25
Andrew McCoy, brick,	$20,00

Mr. Miller read in place a bill entitled "An act authorizing a loan to the borough of Huntingdon, for the purpose of purchasing a lot of ground and erecting an engine house thereon."

On motion the rules were suspended in relation to said bill and it was read a second and third time and passed finally.

On motion of Mr. Fisher, it was,

Resolved, That the resolution authorizing the Burgess to make application to the Legislature, at its next session for authority to levy a tax for borough purposes to an amount not exceeding one cent on the dollar, on the assessed value of the property within the borough, passed on the 4th day of October last, be and the same is hereby altered and amended so as to fix eight mills on the dollar as the maximum amount of tax to be authorized to be levied. Adjourned.

December 4th, 1868.

AN ACT authorizing a loan to the borough of Huntingdon, for the purpose of purchasing a lot of ground and erecting an engine house thereon.

WHEREAS, it has become necessary to provide a house for the safe keeping of the fire-engines belonging to the corporation, and in order to purchase suitable ground, and erect a sufficient building, a loan to the borough will be required, therefore,

Be it enacted by the Burgess and Town Council of the Borough of Huntingdon assembled: SEC. 1. That the Burgess, or a majority of them, he and they are hereby authorized to borrow on the credit of the borough, the sum of four thousand dollars, for which certificates shall be issued for amounts not less than one hundred dollars each redeemable on the first day of January, 1875, bearing six per cent interest, payable semi-annually on the first days of January and July in each year.

SEC. 2. That the money so obtained shall be applied to the purchase of a suitable lot of ground and the erection thereon of a house for the use of the engines.

SEC. 3. That if the said Burgesses or a majority of them shall deem it expedient, they shall advertise in some newspaper or newspapers for proposals for taking said loans.

Passed, December 4th, 1868.

[Signed] HENRY GLAZIER, Chief Burgess.

AN ICE HOUSE EASILY MADE.—A correspondent of the *Western Rural* gives this bit of practical experience: Last January I drew one load of saw dust and spread on the ground on the north side of my horse barn, then drew the ice (sawed in square cakes) and built up a square pile some eight by ten feet and seven or eight high, filling up the spaces between the cakes with younded ice. I then sat up scantling and built a board house around it two feet larger each way than the ice; then filled in saw dust around, and two or three feet on top, and covered with boards and slabs. We have used freely through the season, sold to picnic parties, given away to sick neighbors, and have plenty of ice yet.

☞It is strange to see with what carelessness some invalids attend to their health. They will procure a box of Plantation Bitters, which ought to be used up in a month or six weeks, and upon inquiry it is found that they have used only two or three bottles. Some days they have used it according to the directions, and others have not touched it. The whole trial has been irregular, and of course a less favorable result has come from their use. If it be true that "what is worth doing at all is worth doing well," how emphatically is it true in matters relating to the health. A few bottles of Plantation Bitters have often wrought wonders, while in other instances disease has only been subdued after weeks of resistance. 1t.

SPECIAL NOTICES.

PHYSICAL VITALITY cannot be attained while the digestive organs lack tone and soundness. Inactive digestion affects the whole physique of man, from the crown of his head to the soles of his feet. It is the forerunner of Dyspepsia with its indescribable miseries, and even prepares the way for worse disorders. We speak from experience, as well as on the authority of all liberal-minded practitioners, who present a voluminous array of testimony in its favor, when we say that MISHLER'S HERB BITTERS not only gives instant relief to every sufferer, but affords the means for a quick, effectual and permanent cure of all diseases arising from a disordered stomach, liver, &c. It completely purifies the blood, cleanses the secretions, corrects every irregularity of the system, revivigorates the constitution, and restores the different organs of the body to a healthy condition and proper action. Sold everywhere. de2-1m.

Taxes on Tobacco, Snuff and Cigars.

SUPPLEMENTAL REGULATIONS.

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, October 27, 1868

The Secretary of the Treasury fixed the 23d day of November, 1868, as the day when all the provisions of the law relating to the use of stamps upon tobacco, snuff and cigars should take effect. These stamps will be as follows:

1. Stamps for tobacco and snuff of twelve denominations, viz: one half pound, 1 pound, 2 pounds, 3 pounds, 5 pounds, 10 pounds, 20 pounds, 30 pounds, 40 pounds, 50 pounds, 60 pounds, and 100 pounds.

2. Small stamps for cut tobacco and snuff, in packages of one-half ounce, 1 ounce, and 2 ounces, of the 32 cent class, and 2 ounces of the 16 cent class.

3. Strip stamps for cut tobacco and snuff in packages of 4 ounces, 6 ounces, 8 ounces, and 16 ounces of the 32 cent class, and 4 ounces, 8 ounces, and 16 ounces of the 16 cent class.

4. A stamp for tobacco intended for export as required by section 74, act of July 20, 1868.

5. Cigar stamps for boxes containing 25, 50, 100, 250, and 500 cigars respectively. Those must be used both for domestic and imported cigars and for cigarettes weighing over three pounds per thousand.

6. Stamps for cigarettes weighing three pounds or less per thousand and taxable at $1 50. Until additional stamps shall be found necessary, only one will be prepared suitable for boxes of five hundred each.

These stamps will be furnished to collectors upon requisition, and, with the exception of the exportation stamp, will be sold to manufacturers at their full value as indicated by the tax on the quality represented by each. For each exportation stamp 25 cents will be collected when the entry is made for the transportation of the tobacco to an export warehouse.

If these stamps are delivered prior to November 23, collectors may sell them to the manufacturers, who may immediately commence their use.

Monthly Returns.

The monthly returns of tobacco and cigar manufacturers for the month of November must set forth the whole quantity sold during the month, the number of cigars stamped by the inspector under the old law, and also the quantity upon which tax paid stamps were affixed, and the tax will be assessed only upon the quantity sold without tax-paid stamps.

When stamps have been supplied, the returns of tobacco and cigar manufacturers will no longer be put upon the assessment list, or be receipted for by collectors on Form 23½.

Reworking of Tobacco not Allowed.

Under the act of July 20, 1868, no provision is made for the reworking or re-handling of spoiled tobacco after the same has been stamped.

Absence of Stamps Prima Facie Evidence, &c.

The absence of proper stamps on any package of manufactured tobacco or snuff, or on any box of cigars, sold or offered for sale, or kept for sale, (sections 70 and 90,) is declared to be notice to all persons that the tax has not been paid thereon, and to be prima facie evidence of the non-payment thereof, and such tobacco, snuff, and cigars may be forfeited.

It is enjoined upon all assessors, as soon as stamps are provided, to make, through their assistant assessors, a thorough canvass of their several districts for the purpose of obtaining full and accurate inventories from all dealers of tobacco, snuff and cigars, of the stock on hand on the 1st day of September.

Any person who shall sell, or offer for sale, tobacco, snuff, or cigars, not properly stamped and cancelled after the day fixed for the use of stamps, (September 23, 1868,) and which have been included in any monthly inventory required by section 78 and 94, or any person selling, or offering to sell, the same, who has neglected or refused to make such monthly inventory, will be liable to the presumption of having violated the law, and upon complaint made against him to the burden of proof will be upon him to show why proceedings for the forfeiture of the goods holds by him without having the proper stamps affixed should not be commenced.

Affixing and Cancelling Stamps.

By virtue of the provisions of the act of July 20, 1868, it is hereby prescribed that the affixing and cancellation of stamps placed on packages containing tobacco, snuff and cigars, shall be done in the following manner, viz:

Affixing.—The stamps are to be affixed to the packages by using such adhesive material as will cause them to stick to the wood, paper, or other package securely and permanently.

Cancellation.—Section 67 requires that stamps used on any wooden package shall be cancelled by sinking a portion of the stamp into the wood with a steel die. This should be at least one inch in diameter. The export stamp will be cancelled in the same manner.

The small stamp for cut tobacco and snuff, in packages in one-half ounce, one ounce, and two ounces, and the stamped foil wrappers, must be cancelled by writing or imprinting upon each stamp the manufacturer's or proprietor's name, and the date of cancellation.

The strip stamps, for tobacco and snuff will be cancelled in the same manner, and, in addition thereto, each strip stamp must be so affixed on the package that in opening the same or using the contents thereof, the stamp shall be effectually destroyed.

The strip stamps for cigars in boxes will be cancelled by the use of a stencil plate of brass or copper, in which there shall be cut not less than six waved lines, long enough to extend not less than three quarters of an inch beyond each side of the stamp on the box.

Who to Affix and Cancel Stamps.

When stamps are affixed and cancelled before removal of the packages from the manufactory, the work of affixing and cancelling must be done, or cause to be done, by the manufacturer.

When tobacco or snuff in bond are to be withdrawn from an export, or Class B, bonded warehouse, after the tax has been paid thereon, the proper stamps must be affixed and cancelled under the supervision of the storekeeper as hereinafter directed.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

PRACTICAL AND ANALYTICAL CHEMISTS,

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgements we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through mia-matic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

will quickly restore Gray Hair to its natural color and beauty, and produce luxuriant growth. It is perfectly harmless, and is preferred over every other preparation by those who have a fine head of hair, as well as those who wish to restore it. The beautiful gloss and perfume imparted to the Hair make it desirable for old and young.

McGUIRE'S

SPANISH HAIR DRESSER

FOR PROMOTING THE GROWTH, BEAUTIFYING THE HAIR,

And rendering it dark and glossy. No other compound possesses the peculiar properties which so exactly suit the various conditions of the human hair. The use of this oil as a hair dresser has been universal in every section of the country in the Spanish Main for centuries.—No preparation of art could give that elegant luxuriance and abundance of hair which have so often been the admiration of travelers in Spain. This oil is highly and delicately perfumed, forming an article unrivaled in excellence and upon which the Spanish people for many years have set its seal of enduring approval.

McGUIRE'S

Mexican Wild Flowers Shampoo Lotion

For removing dandruff and scurf from the head, whitening and perfuming the skin. This article is entirely different from any thing of the kind ever offered in this country and is warranted free from all poisonous substances. This valuable lotion was used by the Emperor Maximilian, and Empress Carlotta of Mexico, and universally used by Mexicans for three hundred years. As a wash for the head—it is cooling, cleansing and refreshing.—When thus used it at once relieves headach.

McGUIRE'S

WILD FLOWERS FOR THE TEETH.

All those who are in favor of white teeth and a pleasant and perfumed breath; should at once use McGuire's Wild Flowers for the Teeth.
